

Searching and Researching on the Internet

SESSION OVERVIEW

In this session, participants will be introduced to methods and concepts related to searching the Internet for useful information. They will explore and compare different search engines, and learn some strategies to use them effectively and efficiently. Participants will also explore some of the ethical issues that may arise when students use these tools in the classroom.

- Needle In a Haystack
 - What kinds of resources are available on the web?
- Search Engines, Directories, and Metacrawlers
 - What is a search engine and where do I find it?
- Search Strategies and Tips
 - What are some strategies for effective searching?
